PRESS RELEASE

6th European Thermoforming Conference 2008 in Berlin

The Society of Plastics Engineers – European Thermoforming Division invites you to the 6th European Thermoforming Conference to be held in Berlin from 03 to 05 April 2008 at Maritim Hotel Berlin.

The conference agenda will include, as in previous conferences, presentations from experts in the thermoforming industry and lively debates in workshops about technical and commercial innovations. Moreover, the event provides the unique opportunity to meet colleagues and customers from the industry around the world. More details are available soon at www.e-t-d.org.

European Thermoforming Parts Competition

Again on the occasion of this next ETD conference, thermoformers are invited to participate in the European Thermoforming Parts Competition. Originality, creativity, mould complexity and technical ability will be the judging criteria in order to promote advanced design and developments from a structural innovation perspective.

Entries with thick gauge parts will be possible in the categories Vehicle/Automotive, Industrial and Point of Purchase/Displays. Thin gauge parts will be judged in the categories Food Applications, Medical Applications and General Packaging.

The conference is to be complimented by an informative and comprehensive exhibition (table top displays) of relevant latest product developments and services offered by a variety of leading suppliers to the thermoforming industry. This will also create a discussion platform for exhibitors and conference participants.

Social events enabling you and your accompanying partner to experience the dynamic, cosmopolitan and creative metropolis and gain memorable impressions of Berlin.

Come to Berlin, you'll be most welcome!

Information about the conference may be obtained from Yetty Pauwels /
