EUROPEAN THERMOFORMING CONFERENCE 23-24 April 2010 – Antwerp, Belgium

Dear Industry Member,

Following our last successful conferences we are delighted to inform you that we are planning our 7th conference **23-24 April 2010** in Antwerp, Belgium.

The last conference was very well received by all sectors of the Thermoforming Industry and there has been an overwhelming demand for a 'repeat performance'! Not only in Europe but Worldwide.

As a result of our previous conferences we now have a large proportion of the European Thermoforming Industry members on our database, which represent the most influential group of industry professionals.

As you know, the success of every conference depends not only on the support of the delegates, but also on the support of the Industry as a whole. With this in mind, we urge you to **MAXIMISE YOUR IMPACT AND RAISE YOUR PROFILE** by signing up for sponsorship at the most important industry event in 2010.

Once again major recognition will be given to those organisations that support the Conference, their details being given maximum exposure throughout the Conference. Sponsor details will be continuously displayed on advertising boards as well as recognition being given at the Conference Sponsors dinner, with the presentation of a commemorative plaque.

Additionally, you may wish to consider a Tabletop exhibition to demonstrate your product or service to the Industry. Tabletops are limited, therefore early application is recommended to avoid disappointment!

These are the only opportunities for DIRECT sponsorship and marketing of your products or services to the ONLY Thermoforming Industry specific Conference in Europe. We advise you not to miss out on this unique opportunity.

Please find attached a Sponsorship form, detailing rates for Sponsorship and Tabletop exhibition rates, which we hope you will complete and forward without delay to the Society of Plastics Engineers Europe.

If you have any questions please do not hesitate to contact Yetty Pauwels at the address above, who will be only too willing to help.

May we take this opportunity to thank you in advance for supporting the efforts of all those involved in raising the profile of Thermoforming and we look forward to meeting with you in Antwerp in 2010!

23-24 April 2010 in Antwerp, Belgium, we are assembling one of the largest ever gatherings of European thermoforming companies. The historical city will host the conference of the Society of Plastics Engineers, European Thermoforming Division. The two day conference has been organised to bring together all of Europe's leading manufacturers and representatives from allied industries to discuss technical advances in the industry and hear the views of internationally renowned experts in the field.

Bid for Sponsorship of the **European Thermoforming Conference 2010**
Antwerp, Belgium – 23-24 April 2010
